### Skills

- Test Plans
- Test Cases
- Bug report
- SDLC
- STLC
- Test Strategies
- Regression testing
- Smoke testing
- Sanity testing
- Performance Testing
- Data-Driven Testing
- Functional Testing
- Non-Functional Testing
- Database MySQL
- Jira
- Agile-Scrum
- Temenos Banking Software
- Selenium

### Programming

- Python

### Frameworks

- Behavior Driven Development
- Test Data Driven
- Playwright
- Robot
- Pytest

## Professional Summary

Experienced Software QA Engineer with 2.8 years of expertise in manual and automated testing methodologies, proficient in Selenium, JIRA, and Python. Demonstrated skills in test planning test execution, test case and defect tracking, ensuring thorough coverage across agile development cycles. Specialized in regression testing, performance testing, smoke testing, sanity testing and user acceptance testing (UAT), with a keen eye for detail and problem-solving effectively. Committed to delivering top-tier software solutions while continuously optimizing processes for maximum efficiency.

## Work Experience

### Meezan Bank Limited | Software Quality Assurance Engineer

Karachi, Pakistan

AUGUST 2022 - APRIL 2024

- Led the automation efforts for Temenos banking software modules.
- Automated critical modules such as Accounts, Customer, Fund Transfer, Chequebook, Teller, User functionalities, etc.
- Created and implemented automated test scripts using Selenium with Python to verify essential features.
- Designed and managed a tailored automation framework for efficient test execution and reporting.
- Utilized Page Object Model (POM) design pattern to improve test script maintainability and reusability.

### Digital Melons | Quality Assurance Engineer

Karachi, Pakistan

NOVEMBER 2021 - APRIL 2022

- Integral in defect identification and prevention, validating software functionality to meet specifications.
- Conduct rigorous regression testing to safeguard existing functionality against adverse impacts from new changes.
- Develop comprehensive test plans, cases, and scripts for both manual and automated testing.
- Proactively identify, analyze, and document issues concerning the program function, output, online screens, or content.
- Worked closely with development teams to investigate and resolve reported issues promptly.

### Nyxt Digital | Quality Assurance Analyst

Karachi, Pakistan

MAY 2021 - OCTOBER 2021

- Perform test case execution, both manual and automated, analysing outcomes across web, Android, and iOS platforms.
- Report identified bugs and errors promptly to development teams, ensuring swift resolution.
- Collaborate with cross-functional teams to maintain high-quality standards throughout the software development lifecycle.
- Proficient in automation testing utilizing Selenium and Python programming for efficient test automation processes.
